

Support Coordination

Our NDIS Support Coordination service aims to connect you with necessary support to improve your well-being, maximise your quality of life, and help you achieve your goals. We are committed to ensuring you have the choice and control over the supports you desire.

We facilitate connections for NDIS participants with supported independent living (SIL) providers, specialist disability accommodation (SDA), employment services, community access, daily living support, residential aged care, assistive technology, home modifications, mental health support, allied health, and more.

If Support Coordination is not included in your plan and you are unsure how to connect to services, keep track of your funding, or navigate the review process, contact us so we can guide you.

Registered NDIS Provider

Footsteps is a registered NDIS provider, approved by the National Disability Insurance Agency (NDIA) to deliver Support Coordination and various other services to a wide range of NDIS participants, including those with NDIA-managed funding.

What to Expect from Our Support Coordination Services

We work with you to explore your plan, identify your goals and support you to get the most out of your NDIS plan by finding, recommending, and connecting you to service providers suited to your unique needs.

- Support to access the NDIS and understand your plan
- Recommendations and control over your chosen support services
- Support to identify your goals and develop strategies to achieve them
- Support to implement and get the most out of your plan
- Support to increase your independence and quality of life
